The Norwich Township Fire Department is proud to announce a partnership with the PulsePoint mobile application platform. The PulsePoint app empowers everyday citizens to provide life-saving assistance to victims of sudden cardiac arrest. Application users can now be notified if someone nearby is having a cardiac emergency and may require cardiopulmonary resuscitation (CPR). If the cardiac emergency is in a public place, the location-aware application will alert trained citizens in the vicinity of the need for bystander CPR simultaneous with the dispatch of EMS. The application also directs these citizen rescuers to the exact location of the closest publicly accessible automated external defibrillator (AED). Each year, approximately 350,000 cardiac arrests occur outside a hospital setting in the United States. Nearly 90 percent of these events prove fatal and the chance of survival decreases by ten percent with every passing minute without CPR.

Imagine that you are in a restaurant having lunch with a few friends. You hear a siren in the distance and think to yourself, “I wonder where they are going?” The siren gets louder and closer and then you actually see a fire engine approaching in the distance. Suddenly, surprisingly, the engine turns into the parking lot and parks right in front of the crowded restaurant where you’re eating. That’s when you learn that right next door, someone is unconscious after suffering a cardiac arrest. If only you had known, maybe you could have made a difference.

The PulsePoint app connects directly to the Northwest Regional Communication Center. When an incident requiring CPR is reported, nearby citizens and off-duty responders who carry the app receive a notification on their mobile device. Notifications are made simultaneously with the dispatch of paramedics to anyone within the area that is CPR-trained and has indicated their willingness and ability to assist during a cardiac emergency. These notifications are made only if the victim is in a public place and only to potential rescuers that are in the immediate vicinity of the emergency. When notifications do occur, they intend to target potential citizen rescuers that are within walking distance of the event. PulsePoint reduces collapse-to-CPR times by increasing awareness of cardiac arrest events. The system also aims to reduce collapse-to-defibrillation times through augmented awareness of AED locations.

At the time of need, users that have opted-in receive a push notification accompanied by a distinctive alert tone. The notification is followed by a map display showing the dispatched location of the emergency along with the precise location of the citizen rescuer – providing for easy navigation between the two. The map display also shows the exact location of the nearest AEDs.

The free app is available for download on iTunes and Google Play. After download, click the menu pull-down button in the upper left of the screen, select “Agencies”, and search for Norwich. After you have added Norwich as an agency, select “Settings” from the same menu and ensure you have notifications turned on for CPR. If you have questions or need assistance with the app, please call 614-876-7694.

PulsePoint Partnership Announced

Township Hosts CPR Class

Brown Township is pleased to host a CPR class for its residents at the Brown Township Hall, 2495 Walker Road, on Saturday, November 4 from 8 a.m. to noon. Taught by Norwich Township Fire Department personnel, the course will cover cardiopulmonary resuscitation (CPR); use of automated external defibrillators (AEDs) for adults and children; and relief of choking in adults, children, and infants. The course is designed for those who have a duty to respond to a cardiac emergency because of job responsibilities or regulatory requirements, such as lifeguards, day care providers, etc. Certification valid for two years is available upon the completion of a skills test at the conclusion of the class.

The cost is $35. Participants must also buy or borrow a Heartsaver CPR AED student manual.

To register, go to www.norwichtownship.org, click on “Fire,” click on “CPR Certification Classes,” select the “Heartsaver CPR” option, click on “Register,” go to “Heartsaver CPR Class” and click “Select,” then “Next Week” until you reach the right week, then select the box labeled “8:00 AM” under “November 4.”
A Message from Sheriff Dallas Baldwin

Community and Law Enforcement

In today’s volatile atmosphere of perceived mistrust, these two entities have experienced a rift that calls for a positive response. After all, it is a known fact that we are stronger when there is a solid bond between the community and those who are charged with protecting it.

When I first ran for Sheriff, I made it one of the planks in my campaign that there was going to be a new dedication to strengthening the ties that bind us all together. With the start of our new Community Response Bureau, the pledge is being fulfilled.

I must say that, within Franklin County, there is more harmony than in many other locales. Under my predecessor, Sheriff Scott, there was a good relationship. However, I’ve felt that there could be much more—and that more is happening. Programs such as:

- Community Advisory Council—Members of the community will be invited to participate in this program where citizens come together quarterly to discuss issues of concern in various county neighborhoods and how we can come together to find creative solutions.

- The Community Liaison Unit—Whether it’s interacting with some of the vibrant minority communities or working with townships, the members of this unit will build stronger personal relationships that allow everyone to better understand the role we all play in making Franklin County a great place to live.

- PACT (Pastors and Cops Together)—Modeled after a similar program in Dayton, PACT brings faith leaders together to partner with the FCSO in working to help during sudden tragedies or other violent events in giving comfort to those in need.

- Sheriff’s STAR—There are so many unsung heroes within Franklin County and it’s time for them to be recognized. Each month a personal certificate of recognition will be presented to shine the light on a resident doing extraordinary things making a positive impact in their community.

I invite you to be a part of strengthening our common bond to continue to make Franklin County a great place to live.

For more information, contact Ariel Link, Community Response Bureau, at 614-525-4265 or amlink@franklincountyohio.gov.
No permit is required for recreational fires, campfires, or outdoor fires. The standards for these types of fires are the fire must be fueled by clean seasoned firewood, natural gas, or equivalent. Total fuel areas must be no larger than three feet in diameter and two feet in height. Such fires must be no closer than 25 feet from structures. Provision must be made to keep the fire from spreading. Fires in approved containers (chimenea, fire bowl, metal fire pit) must be no closer than 15 feet from anything combustible.

An open burning permit must be obtained for a bonfire. Bonfires must be no greater than five feet in diameter and five feet in height. Such fires must be no closer than 50 feet from any structure and provisions must be made to keep the fire from spreading. A completed open burning permit application should be submitted to the Safety Services Building at least five days before the open burn is scheduled. Permits are processed during normal business hours – 8 a.m. to 4 p.m., Monday through Friday. An application received fewer than five days before the scheduled burn will be assessed a $10 fee. The Safety Services Building is located at 5181 Northwest Parkway, Hilliard, and can be reached by phone at 614-876-7694.

Open burning is prohibited when it is offensive or objectionable due to smoke or odor emissions because of atmospheric conditions or local circumstances. In such situations, the permit holder or the fire department may be directed to extinguish the fire.

Under Ohio law, certain materials may be not burned anywhere in the state at any time:
- Residential waste (tree trimmings, stumps, brush, weeds, leaves, grass, shrubbery, and material from crop or livestock production) within city limits.
- Any waste created in the handling, preparation, cooking, or consumption of food.
- Materials containing rubber, grease, or asphalt or made from petroleum such as tires, cars, and auto parts.
- Dead animals.

Open burning is not allowed when air pollution warnings or restrictions by the Ohio Environmental Protection Agency (OEPA) are in effect. Fires cannot obscure visibility for roadways, railroad tracks, or airways. No waste generated off the premises may be burned.

It is necessary to notify OEPA in advance to burn agricultural wastes and plant matter such as tree trimmings, stumps, brush, weeds, leaves, grass, shrubbery, and material from crop or livestock production. This includes fence posts and scrap lumber, but does not include buildings, land clearing waste, dead animals, or animal waste. Such fires must be more than 1,000 feet from any inhabited building. Advance notice to OEPA is also required for ceremonial fires composed of a wood stack no larger than five feet high and five feet wide with a duration of three hours or less. Seasoned firewood or an equivalent fuel must be used.

OEPA has statutory authority to enforce open burning laws. Illegal open burning can result in substantial penalties. With questions, contact OEPA at 1-800-686-2330 or 614-728-3778 or visit the website at www.epa.ohio.gov/dapc/general/openburning.

- No non-routine calls.
Meetings are held the third Monday of every month at 7:00 p.m. at 2491 Walker Road, Hilliard, Ohio.

L-R: Fiscal Officer Greg Ruwe and Trustees Gary Dever, Pam Sayre and Joe Martin

Township News & Notes

Electronics Recycling
The Solid Waste Authority of Central Ohio lists the following organizations that accept electronics for recycling. Please call ahead to confirm acceptance. A fee may be charged.
- Accurate IT Services, 3854 Fisher Road – 614-453-0709
- Community Computer Alliance, 709 North James Road – 614-223-1530
- Goodwill, various locations – 614-294-5181
- Metro Computer Resale & Recycling, 725 Harrison Drive – 614-279-6236
- Southeastern Data, 4300 Janitrol Road – 407-480-6446
- Staples, various locations – 614-299-9425

Passing on Amity Road
Amity Road neighbors have noticed an alarming increase in the number of drivers passing other cars across the double yellow line. The Franklin County Engineer’s Office has been notified and is considering additional measures if a sufficient number of complaints are registered. Residents who notice this dangerous driving behavior are asked to contact Michael Meeks at 614-525-6158.

Transient Vendors Policy
At its July 21, 2017 meeting, the Brown Township Board of Trustees rescinded Resolution 95-15, adopted by the Board in December, 1995. The long-unused resolution provided for the registration and regulation of transient vendors.

The Board was expected to vote at its September meeting on the following new policy:
“It is the policy of Brown Township not to regulate transient vendors operating in the township. The Brown Township Board of Trustees assumes no role concerning transient vendors and urges residents to use sensible precautions when evaluating the claims, services, and products of such vendors.”
